I'm working on it now. Will send you something shortly, I need to go back and check the rtc document to make sure we are consistent with what we have in there for a couple. Dian is looking for something COB today if possible. I said that was fine on my end and thought it was likely ok with management but wasn't 100% sure.

Eric,

Sounds good to me. Thoughts?

Mike

Subject: FW: About Oxitec permit to relase GM mosquitoes

Importance: High

Hi All,

Sent this press inquiry, received today and due today, to Bob, Mike and Eric but none of them appear to be available right now.

Can any of you help out on this?

Thanks,

Dian

On it.

Minus Cheryl (who is now with OPPT IO and Julia who is all with OPPT)

Minus Kaythi who just had a baby 😊

+ The rest of OPP Comms

Subject: Fwd: About Oxitec permit to relase GM mosquitoes

Good morning,

Please see below for reporter's questions re: GM mosquitos. **Deadline is ASAP.**

I would like to write an article about the last permit EPA has done to oxitec to release GM mosquitoes in Florida and Texas.

I have some questions about the authorizations.

- Why do the releases not occur within 500 meters of sewage treatment facilities and any farm producing citrus crops?
- How are you controlling the effectiveness of the Oxitec technology?

Why does EPA decide to restrict the release (20 000 mosquito / week / acre) ?

Thank you,
Melissa

Good morning Christophe,

I received your inquiry from a colleague. Can you share your deadline, please? Do you have any questions in addition to the below?

Bonjour

My deadline est as soon as possible.

I have an other question : why does EPA decide to restrict the release (20 000 mosquito / week / acre) ?

Thanks a lot,

All the best,
Christophe

Thank you,
Melissa

Dear EPA's members

I am Christophe Noisette, a French journalist specialized on issues related to GMOs and seeds.

I would like to write an article about the last permit EPA has done to oxitec to release GM mosquitoes in Florida and Texas.

I have some questions about the authorizations.

- Why do the releases not occur within 500 meters of sewage treatment facilities and any farm producing citrus crops?
- How are you controlling the effectiveness of the Oxitec technology?

Thanks a lot for this answer,

All the best,

Christophe Noisette
